Mr. Bill Bown
Bonneville Quarries Inc.
842 West 400 North
West Bountiful, UT 84087

Dear Mr. Bown:

This letter is to inform you (Bonneville Quarries Inc.) that in the fall of 2011, a Bureau of Land Management (BLM) survey crew completed some work in the area of your Lynn Springs Quarry, located in T. 14 N., R. 16 W., Section 20, SLB&M. In particular they surveyed the south section line of section 20, placing several "T" posts along that line.

On December 7, 2011, Larry Garahana of my staff conducted a surface compliance inspection of the area in question. His inspection concluded that the north end of your Lynn Springs Quarry disturbance is in fact on BLM land and at this time unauthorized.

Larry has also informed me that during a meeting on July 19, 2011, between you, Heidie Torrealday of the Sawtooth National Forest, Minidoka Ranger District and Larry, it was agreed that you would complete reclamation on the BLM portion of the disturbance once the section line was surveyed.

The BLM requests that during the 2012 field season, you complete the reclamation needed on BLM land that is attributed to your mining operations. We also request that although you may need to remove the "T" posts in order to complete said reclamation, we would like you to replace them when you are finished.

If you have any questions or concerns with anything mentioned in this letter or dealing with this matter please contact Larry Garahana, Salt Lake Field Office Geologist at (801) 977-4371.

Sincerely,

Michael G. Nelson
Assistant Field Office Manager
